GARANTOVANÁ KVALITA OD ŠLECHTITELE

 **OSIVO** 2014 / 2015

HOBBY OSIVO / HOBBY SEED

Vážení obchodní přátelé,
dovolujeme si Vás oslovit s nabídkou nové řady osiv šlechtitelské a semenářské firmy Moravoseed.

Společnost Moravoseed dodává již více než 20 let široký sortiment osiv zelenin, květin, ale i léčivých a aromatických rostlin všem skupinám pěstitelů. Základem úspěchu je kvalitní a intenzivní šlechtitelská práce, důsledná kontrola procesu výroby osiv, jejich posklizňové úpravy a finalizace. V řadě barevných sáčků Moravoseed Vám nabízíme 313 odrůd zelenin, květin, léčivých a aromatických rostlin, která je pro novou sezónu rozšířena o 105 novinek.

Standardní osiva zelenin jsou vyráběna ze „základního rozmnožovacího materiálu“, který se produkuje na šlechtitelských stanicích pod přímou kontrolou šlechtitelů. Další fáze výroby se pak zajišťuje v nejvýhodnějších klimatických podmínkách pro jednotlivé druhy po celém světě a to také pod přímou kontrolou odborných pracovníků společnosti Moravoseed. Osiva květin, léčivých a aromatických rostlin jsou nakupována u renomovaných evropských i světových firem.

Veškerá osiva procházejí důsledným certifikačním procesem, který spočívá v prověřování osiv ve vegetačních zkouškách a v laboratorním testování čistoty a klíčivosti. Všechny firemní normy, zejména klíčivost, jsou pak výrazně vyšší než normy stanovené zákonem a vyhláškami.

Věříme, že Vy i Vaši zákazníci kvalitu dodávaných osiv oceníte.

Přejeme Vám hodně pěstitelských úspěchů.

Vážení obchodní priatelia,
dovoľujeme si Vás oslovit s ponukou nového radu osív šľachtiteľskej a semenárskej firmy Moravoseed.

Spoločnosť Moravoseed dodáva už viac ako 20 rokov široký sortiment osív zelenín, kvetín ale aj liečivých a aromatických rastlín všetkým skupinám pestovateľov. Základom úspechu je kvalitná a intenzívna šľachtiteľská práca, dôsledná kontrola procesu výroby osív, ich pozberovej úpravy a finalizácie. V novom rade farebných vrecúšok Moravoseed Vám ponúkame 313 odrôd zeleniny, kvetín, liečivých a aromatických rastlín, ktorý je pre novú sezónu rozšírený o 105 novínok.

Štandardné osivá zeleniny sú vyrábané zo „základného množiteľského materiálu“, ktorý sa produkuje na šľachtiteľských staniach pod priamou kontrolou šľachtiteľov. Ďalšia fáza výroby sa potom zaisťuje v najvýhodnejších klimatických podmienkach pre jednotlivé druhy po celom svete a to aj pod priamou kontrolou odborných pracovníkov spoločnosti Moravoseed. Osivá kvetín, liečivých a aromatických rastlín sú nakupované u renomovaných európskych i svetových firiem.

Všetky osivá prechádzajú dôsledným certifikačným procesom, ktorý spočíva v preverovaní osív vo vegetačných skúškach v laboratórnom preverovaní čistoty a klíčivosti. Všetky firemné normy, najmä klíčivosť, sú potom výrazne vyššie ako normy stanovené zákonom a vyhláškami.

Veríme, že Vy i Vaši zákazníci kvalitu dodávaných osív oceníte.

Prajeme Vám veľa pestovateľských úspechov.

vedenie spoločnosti Moravoseed CZ a.s.

Dear customers,

We present you a new range of seed packets from the company Moravoseed.

For more than 20 years Moravoseed supplies all groups of growers a wide range of vegetable seeds, flower seeds and seeds of herbs. The key to success is quality and intensive breeding work, consistent control of seed production process and post-harvest treatment. In the line of Moravoseed seed packets we offer 313 varieties of vegetables, flowers and herbs with 105 of them being novelties for the next season.

Basic seed, used for production of standard vegetable seeds, is produced at breeding stations under direct supervision of breeders. The next stage of the production is ensured in most suitable places for each species all over the world, supervised by production specialist. The seeds of flowers and herbs are bought from renowned companies located in Europe and other parts of the world.

All our seeds undergo a strict certification process, consisting of germination and purity laboratory tests and subsequent grow-out trials. All company standards are higher than those required by the law.

We believe that both you and your customers will appreciate the quality of our seeds.

We wish you a lot of success in growing.
